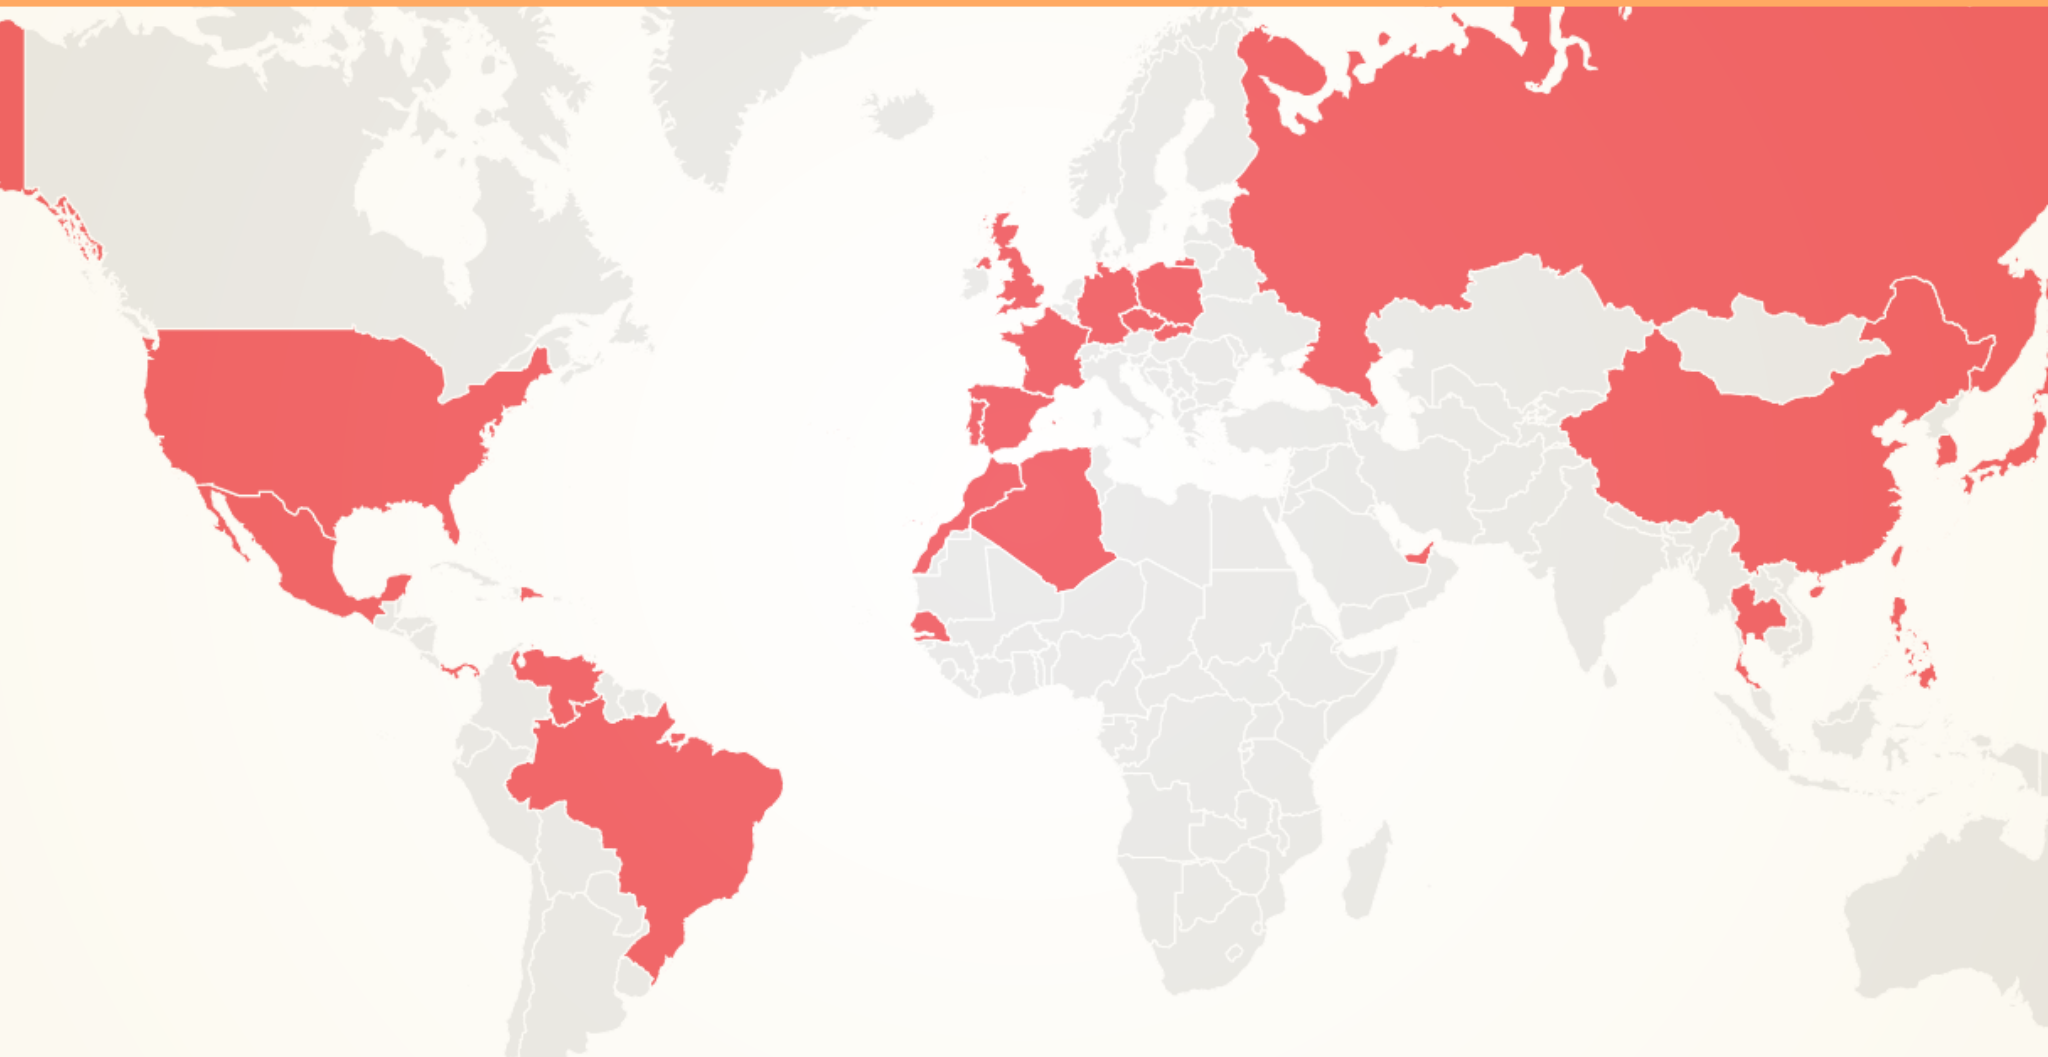
TODAY present in 7/10 Spanish homes, 25% market share & **EXPORTS** in > 30 countries

HISTORY

GROUP 8 - PASTA MARKET in SPAIN

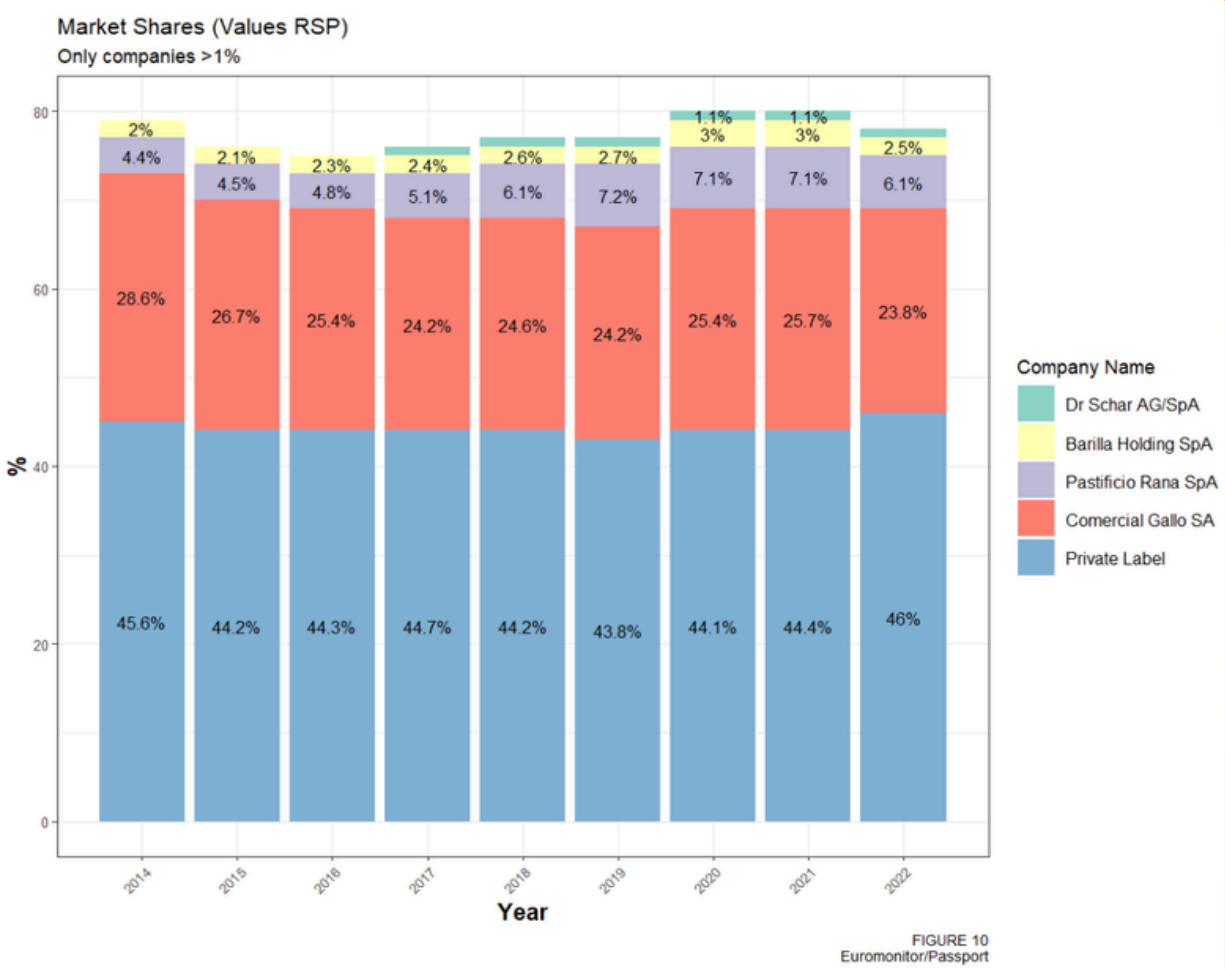


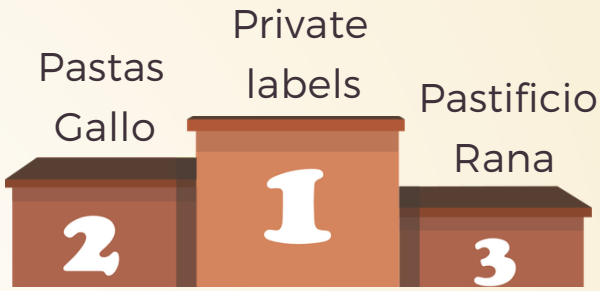
TODAY present in 7/10 Spanish homes, 25% market share

& **EXPORTS** in > 30 countries

MARKET SHARE

GROUP 8 - PASTA MARKET in SPAIN





COMPETITORS

Pastificio Rana SpA

> fresh pasta variety

5.8% average market share

Dr Schar AG/SpA

> gluten free variety

0.96% average market share

Strenghts

- High **range** of pasta products
- High **innovation** rate
- Care for customers' needs
- Pioneer of **gluten** free pasta
- Leading competition in the market share
- Affordable **prices**

Weaknesses

- Small **range** of fresh pasta products, one type of gnocchi, no pre-packaged ready meals (Pasta Rana)
- Social media channels **exclusively** in Spanish language

Opportunities

- **Frozen** pasta products
- **Sustainable** ingredients as an alternative to wheat
- Shelf-to-table instant pasta

Threats

- High market **competition** (companies specialized in gluten-free)
- **Low carb trend** might affect future consumption for pasta
- Impact of **climate change** on raw materials

TAKE HOME LESSON

Spain economy

Spain is a growing economy, even if not the most flourishing one in the European Union

1

Demand analysis

Market of Pasta is progressively and slowly growing.
New trends are influencing the market

2

Supply analysis

Many companies are entering the market
The average price has increased for various reasons, cost of raw materials being only a small contributor

3

Pastas gallo

Leading company in the marketk of pasta
with skill of innovation and few to no competitors
